313 East Broad Street

Our Hats are wonderful, both for their beauty and style and reasonableness in price.

Can We Say More?

BRYAN CRITICIZED IN HOUSE DEBATE

Secretary's Salary and His Chau-
taqua Lectures Subjects
of Comment.

Washington, April 4.—The uniforms of State Department footmen, their compensation, the Panama canal, Secretary Bryan's salary and the chaqueta lectures, and half a dozen other subjects occupied the House today during consideration of the legislative, executive and judicial appropriation bills.

Estimates included provision for a coachman and footman for the Bryan carriage, which provoked comment. Representative Johnson, of South Carolina, in charge of the bill, read from the Bible the story of the first furnace, and declared Secretary Bryan had screamed and ridiculed with his hair unsmoothed and with his body unshaven.

Representative Humphrey, of Washington, offered an amendment to increase Secretary Bryan's salary. It was ruled out of order, but Mr. Humphrey got a chance to talk.

"We ought to have a Secretary of State," he said, "who would not have to sell something to England and violate his party platform to extricate himself and the country from the complications into which it had fallen through him."

When an appropriation was reached for "driver's equipment" for the State Department, Representative Mondell, of Wyoming, said Secretary Bryan was undoubtedly planning to put uniforms on his coachman.

"Whether the British Union Jack should be displayed on the front of the back of the uniform is a matter of taste," he said. "But that it should be prominent somewhere is without question, in view of the recent surrender to Great Britain on the canal tolls question."

COAL COMPANY GETS BUSY.

Logan, W. Va., on a Boom—Many Houses to Be Built This Year.

Logan, W. Va., April 4.—Construction is proceeding for the development of the Main Island Creek Coal Company, with headquarters here. Four steel tipples have been contracted for, at

an average cost of \$25,000; seventy-two houses have been completed, 200 more are under construction, and possibly a total of 1,000 will be built during the summer. This company has 2,000 acres of coal land under lease, and within eighteen months expects to begin shipping from sixteen mines, anticipating an annual output of 2,000,000 tons of coal by the end of 1915. It organized with \$500,000 capital stock, and John Laing, Charleston, is president.

Little Mills Start Again.

Concord, N. C., April 4.—Roberta Manufacturing Company has completed rebuilding its mill previously destroyed by fire. It has 1,500 spindles, etc., driven by a 150-horsepower water and electrical equipment. About \$15,000 has been invested for the machinery, and the daily capacity will be 1,500 pounds of yarn, with thirty operatives employed.

Bars Liquor on Trains.

[Special to The Times-Dispatch.] St. Louis, Mo., April 4.—All Missouri railroads have adopted the rule that no more liquor will be served to dining or club car patrons on the trains.

PREPARE TO OPEN INDUSTRIAL SHOW

Public to See Big Manufacturers' Exhibit in Its Own Home, Beginning Next Week.

TO ADVERTISE RICHMOND

Municipal Exhibit Only One of Its Kind in the South—Big Opening Night.

After months of unavoidable delay the Manufacturers' Exhibit, located in three floors of the Chamber of Commerce and Manufacturers' Building, will be opened to the public for inspection on Tuesday morning, April 14, at 10 o'clock, and daily thereafter. Admission to the exhibit will be free at all times. The months of preparation have been utilized to good effect, and the displays of Richmond-made goods set up are striking.

On Monday night, April 13, at 8:30 o'clock, there will be a private viewing of the exhibit by city officials, members of the City Council, officers and directors of local commercial organizations, the exhibitors and the press. There will be music and entertainment features to make the occasion enjoyable, and none of the visitors will leave without many souvenirs. Kessels' Band will furnish the music for the public inspection on Tuesday night.

Big Municipal Exhibit.
The Manufacturers' Exhibit, the newest and most original suggestion for industrial, civic enterprise, occupies the second, third and fourth floors of the Chamber of Commerce and Manufacturers' Building. The building is a masterpiece of architecture, and each floor is virtually one huge room. Visitors will enter on the fourth floor, walking down through the third and second floors to the exhibit area, necessarily seeing many of the displays even in a flying visit.

One of the most interesting features of the exhibit is the fact that it is the only one of its kind in the South, which was erected and will be maintained by such departments of the municipal government as health, school, water, gas, electricity and public safety.

The Manufacturers' Exhibit is to be a permanent display of Richmond-made products, and is designed to advertise the city's manufacturing resources in a practical and impressive manner. It is expected to prove as much of a revelation to the people of Richmond as to convention visitors. The exhibit has been erected with an almost total disregard for cost, and is of a character to endure. This scheme of municipal advertisement has been adopted by only a few of the most wide-awake cities in the country, but its popularity is growing rapidly.

To Give Many Prizes.
To encourage Richmond people to see the exhibit themselves and to bring strangers with them, many novel souvenirs are to be given away by the exhibitors. An interesting feature will be the series of valuable prizes to be given to visitors by the lucky number system. In no sense is the exhibit to be a profit-making enterprise.

As soon as possible an employment agency will be opened in connection with the exhibit through which manufacturers will be aided in securing experienced laborers. This association of manufacturers proposes to co-operate with the other commercial organizations of the city in all public movements, devoting special attention to the problem of procuring cheaper homes for factory labor.

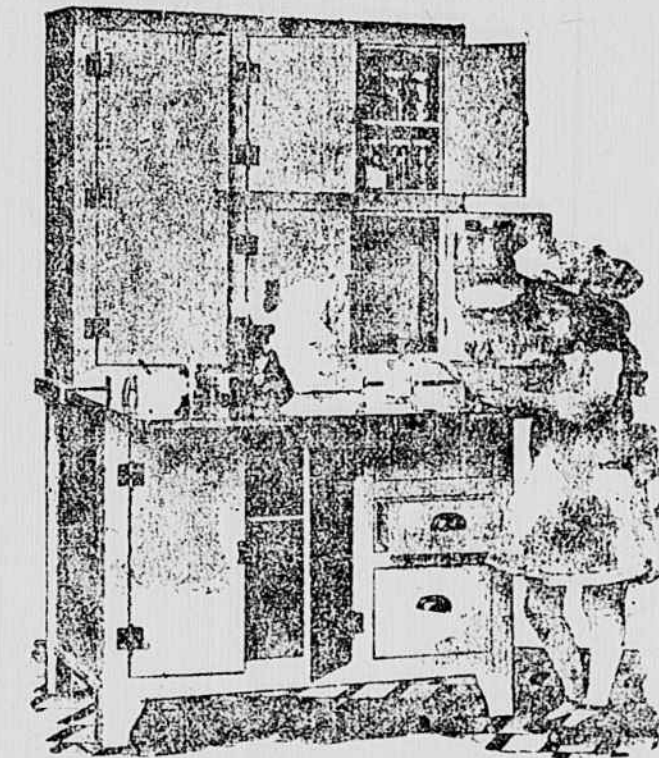

Location of Exhibits.
The list of exhibits and their location in the building is as follows:

- Adams, W. H., second floor.
- Albion Paper Company, third floor.
- American Bread and Baking Company, third floor.
- American Furniture and Fixture Company, second floor.
- American Locomotive Company, third floor.
- Atlantic Varnish Works, Inc., second floor.

One White Enamel Stool.....	\$1.50

It has remained for the twentieth century to produce this finished hygienic product for the home—the dream of housekeepers for years.
It has remained for Sydnor & Hundley to introduce

The First White Enamel Kitchen Cabinet

to the women of Richmond, upholding our usual standard in the presentation of the best, and arranging something of an innovation in the presentation of this full collection of dainties of substantial value.

There is but one "White House." There is only one place in Richmond where you can buy it. It is well worth a trip to

SYDNOR & HUNDLEY'S

to see this PERFECT DEVICE FOR PARTICULAR HOUSEKEEPERS, AS DISPLAYED IN OUR WINDOW. It is an all-steel sanitary metal cabinet, immaculate and inviting, finished throughout with special "White House" cabinet conveniences—portable flour bins, bread box, glass sugar jar, glass rolling pin, and seven engraved glass jars for the upper compartments—everything that tends to efficiency in the home.

Varni-Shine Polish Company, fourth floor.
Virginia-Carolina Chemical Company, second floor.

TAYLOR & BROWN,
913 East Main St.

Wortendyke Manufacturing Company, third floor.

TRIBUTE TO GOVERNOR

Panunkey Indians Bring First Fish Catch of Season.
Chief G. M. Cooke, of the Panunkey Indians, paid his semi-annual visit of tribute to the Governor of Virginia yesterday. The chief was accompanied by Councilor T. T. Dennis, W. E. Collins and J. S. Robinson, trustees. They brought a handsome catch of shad, perch and rock bass, the first of the season in their fishing waters. The custom of paying tribute in game to the Governor of Virginia with each recurring season has been long continued by the Panunkey Indians, the chiefs of the tribe claiming that it dates back to the earliest Colonial period, and that it is in lieu of all other forms of taxation of which the Indians are exempt.

TWO SUITS BROUGHT

E. V. Kent Suing the Fulton Brick Works for \$5,000 Damages.
In the City Circuit Court yesterday, E. V. Kent brought suit for \$5,000 against W. Parrish, trading as the Fulton Brick Works. The suit is for alleged damages sustained. The T. E. Elmore Corporation brought suit against T. E. Elmore for the recovery of \$313.50. Elmore, it is said, was formerly a member of the corporation.

Coal Freight Rate Unreasonable.
Washington, April 4.—The present freight rate of \$2.65 a ton on coal from Newcomb, Tenn., to Greenville, S. C., was held to be by the Interstate Commerce Commission to-day unreasonable, in so far as it exceeds \$1.95 a ton.

THREE CONVICTS SHOT AND KILLED

Meet Death in Attempted Break From Incurable Ward of Folsom Prison.

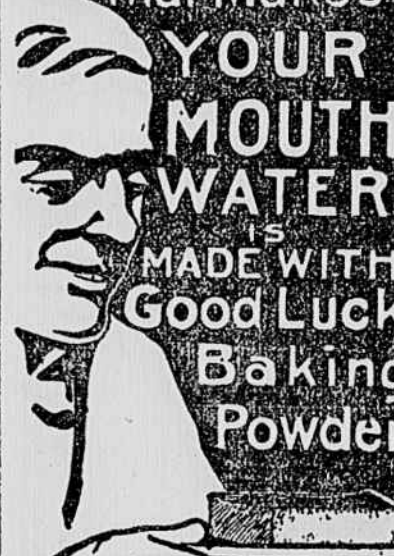

Sacramento, Cal., April 4.—Three convicts were shot and killed and two others injured, probably fatally, in an attempted break from the incurable ward of Folsom prison into to-day. The dead: Jose Lucera, serving two years for grand larceny. Earl W. Sprell, serving two years for burglary. Raymond Blade, serving two years for burglary. Fatally wounded: Norman C. Hare, serving two years for assault; shot through body. Percy Barnes, serving two years for grand larceny; shot through body. Thirteen prisoners were in the plot to escape, but not one reached the outside of the building. Prison officials were prepared for the break, for

guards had learned of the convicts' plan. Leaders in the plot were warned not to attempt the break. At a signal given by the ringleaders, the convicts broke through the wooden doors of their cells and rushed into the corridor. F. Quillet and E. C. Wiseback, two guards, opened fire with rifles. The incredible ward is in a new building, not entirely completed. Steel cage doors have not been installed in the cells.
